

Launch checklist

A practical checklist for product scope, design, integrations and launch readiness.

☐ **Project scope**

Agree on the feature list, exclusions and third-party dependencies.

☐ **Design and languages**

Confirm the frontend, content and all required language versions.

☐ **Games and providers**

Verify provider access, game categories and market restrictions.

☐ **Payments and currencies**

Confirm deposit, withdrawal and reconciliation flows.

☐ **Verification and risk**

Review verification rules, staff permissions and escalation paths.

☐ **Testing and acceptance**

Complete integration, mobile, accessibility and acceptance checks.

☐ **Support and handover**

Record support contacts, responsibilities and handover documents.

☐ **Billing and third-party fees**

Agree on setup fees, recurring fees and external service charges.

☐ **Licensing arrangement**

Confirm the target markets and licensing responsibilities.
